

## Seeking graduate students whose research overlaps the study of religion

The UCI Religious Studies (RS) program is reaching out to campus-wide graduate students whose work **overlaps the study of religion**.

Our aim is explore if/how RS can support your work, possibly through short workshops on theory and methods, mentorship, UC-wide conference opportunities, or supplemental funding.

*If you have interest* in receiving information for an online meet-and-greet in early December with a few RS steering committee members, please email Brianne Donaldson, Director of Religious Studies as soon as possible at **[b.donaldson@uci.edu](mailto:b.donaldson@uci.edu)**.
